She is well known for her accurate predictions in financial markets and giving an in-depth insights to corporates which empowers them to plan their future strategies.

# TUG OF WAR BETWEEN BULLS AND BEARS, TRADE WITH CAUTION

The election results brought about positive and optimistic market sentiment. The victory of the Modi government saw market participants cheering for political stability. However, the market highs were short-lived and markets had to come to terms with the ground reality. Due to the existing economic scenario already in play, Nifty was not in a position to sustain the gains that it had achieved and plummeted from highs of 12,100 to create a bottom at 11,680.

We had indicated a bearish trend for June and predicted correctly that it was going to be a tough phase for the market with any hopes of a bounce back being very slim.

# Astro Outlook For The Month JULY - 2019

The Time Theory analysis for the month of July 2019 indicates the continuation of the tough phase and does not indicate any signs of favorable push to the Markets. In fact, the market will witness a heavy fall. There will be small rallies which will exhaust soon. The upward rally will be very short lived and can mislead the traders.

The signs from the chart do not provide a very optimistic picture for this month. The Bears will be grabbing their opportunities leaving the market with panic and negative sentiments. The first half of the month will be highly volatile, however, the second half shows no signs of improvement and will be tough phase for participants.

The chart suggests that the trading range for the Intra days are going to be very broad in this month. Nifty will be very volatile and midcap Index will start the process of bottoming out. This will lead to high volatility.

## IMPORTANT EVENT – BUDGET 2019

The month of July is eagerly awaited as it will unveil the BUDGET 2019, an important event that will impact the market tremendously. Based on economic data released at the end of June, one important and extremely crucial report was that of the higher levels of fiscal deficit. This has created a general sense of demotivation as higher fiscal deficit will impede future economic growth and slow down development.

The Modi government and Finance Minister Nirmala Sitharaman has a daunting task of boosting the fiscal growth and economic prudence through various key initiatives and announcements in the Budget.

Market participants are anxiously looking forward to the Budget announcement and have a lot of hopes from the budget as it is one of the most critical and key events that will help bring a turnaround in the economic scenario and give the required boost to the existing signs of an economic slowdown.

A full detailed report regarding the expectations from the budget will be revealed in our Astro economics article section.

## Expert Recommendations

Our time theory analysis strongly indicates that the valuation of Midcap index stocks will be very attractive this month, hence, we suggest that our subscribers take advantage of this opportunity.

We advise our short term traders to trade very cautiously and take bearish stance and book profits at the end of the month.
