JAVARIA

MONTHLY OUTLOOK – OCTOBER – 2019  
NIFTY-50

SHUBH ASTRO WORLD

An ace TIME THEORY practitioner based on Vedic Astrology; SHUBHA JAVARIA have been into the art of forecasting the time trends from last 17 years for corporates & financial markets. She is well known for her accurate predictions in financial markets and giving an in-depth insights to corporates which empowers them to plan their future strategies.

# NIFTY GOES THROUGH A DUAL PHASE THIS MONTH RANGE BOUND FOLLOWED BY TREND

September 2019 was a bonanza month for the market participants. The positive news of the corporate tax rate cut announced by the Government cheered the market and added a positive streak for the economy.

We are proud that we have once again accurately predicted this historic announcement through our Time Theory and correctly predicted in our September report about the trend change for the markets and correlated this important event with the precise date range.

We offered extreme clarity regarding the date range and insights regarding an important event i.e. the stimulus packages which will lead to the trend change in the markets.

We also mentioned that between the period of September 18 – 20, 2019, market will have a sharp short-covering and on 20 September Nifty gave whopping returns and created a new record.

# TIME THEORY ASTRO OUTLOOK FOR THE MONTH OCTOBER - 2019

Understanding the slow down and fragility of the current economic scenario, our Finance Minister announced the Tax Reforms to get the economy back on track and her move successfully won the hearts of investors. The impact of this announcement was extremely positive for the market and resulted in getting the Bears to retreat and putting back the Bulls in charge which elevated the wealth of Investors.

# TIME THEORY ASTRO OUTLOOK FOR THE MONTH OCTOBER 2019

This is going to be a trader's month. As per our Time Theory, October will see the markets divided by two phases. From the beginning level of October month Nifty, Nifty will resume trading sessions with weakness and Volatility. There will be a touch of bearishness in trading days.

The Time Theory indicates that the cycle in October is extremely complex and will lead to any gains that is made to be converted into profit bookings. This in turn will not allow the market to move upwards speedily. However, the second half of the month could differ from this cycle and lead to some clear directions.

Geopolitically, there is an indication of some negative development which will keep exerting pressure on the economies and there could be some announcement in the middle of the month that will trigger the new range.

# TIME THEORY ASTRO OUTLOOK FOR THE MONTH – OCTOBER 2019

The first half of the month, i.e. October 1 to 15, will witness range-bound. However, it will face an equal amount of volatility. Nifty will build its range and will touch support and resistance both. The movement is going to be quiet sharp, either downward or upward. Gap up and gap down will be one of the most common features in these trading days.

It will be a tough proposition for Nifty to create a new high in the first half of the month. On an Intraday basis, markets may see players who would like to book profits.

# TIME THEORY ASTRO OUTLOOK FOR THE MONTH – OCTOBER 2019

The second half of the month will generate the trend and take Nifty into a new range. This trend can be generated on either side, hence, we advise our subscribers to study the trend carefully for a couple of trading days and act accordingly.

The trend which will develop (either upward or downward) will sustain until the end of the month. The probability is that there will be an upward trend in the market. In any case, we would like our subscribers to monitor the trend carefully before taking any position. Again, gap up or gap down will be the common characteristics in these trading days.

# TIME THEORY ASTRO OUTLOOK FOR THE MONTH – OCTOBER 2019

## Expert Recommendations

October is the time to stay cautious, observe the market trends on the given dates and take positions accordingly.

We advise our subscribers to stay cautious and have less exposure, continuously keep booking profits. At the time of trend change dates, i.e. 1st October and 16th October, we strongly advise to first take time to understand the market clearly and then take positions as per the prevalent trend.
